

Find Duplicate Photos and Media Automatically with One Mouse Click

Find Duplicate Photos Automatically with One Mouse Click

Was released new edition of Find Duplicate Photos, v 7.97. In new Find Duplicate Photos made large number of improvements, especially related to increasing of stability and speed of duplicate file removing, music and media organizing, sorting and renaming process. First, in Find Duplicate Photos was improved organizing of MP3 music files without any tag information or only with partial tag information. Now with Find Duplicate Photos all they are automatically organized using information, which is available, even if it is partial. Also to Find Duplicate Photos was appended possibility for easy image files organizing. Not a secret, that people, who collect music, also have large collections of pictures. And all this pictures are also need to be organized. We gathered large number of requests from our Find Duplicate Photos users to append picture organizing possibilities to our software. And they are now available! In new version of Find Duplicate Photos was appended a new wizard for picture organizing. It is named "Organize Pictures" and is accessible over "Wizards" -> "Organize Pictures" Find Duplicate Photos top menu item. There are several standard methods of picture organizing: by camera model and manufacture, by picture dimensions (width and height), by picture content type (Color or Black and white, Picture, Drawing or Document scan, etc.), by picture creation date or something custom, that you can easily specify for yourself by pressing "Edit" button. In new version of Sort MP3 music organizer are also were foreseen large amount of non-standard situations, that may occur. For example, if while MP3 music organizing free space on the destination hard drive will be too low to continue music organizing, a special notification will be shown and you will easily understand, what had happened. Another example of positive changes in Find Duplicate Photos - if there will not be any MP3 music files in the source folder and you will want to start MP3 music organizing, you will be notified, that there are no MP3 music files in the source folder to organize. Intuitive icon, which will be shown in addition to event description, will let you know, that there are no MP3 music files in source folder to organize. By just one click on this sign will be opened source folder (you don't need to go to Windows Explorer to find it) and you will have possibility to copy to it all MP3 music files, that you want to be sorted, organized and automatically renamed. As you know, Find Duplicate Photos organize not only your MP3 music and music in 176 other formats and types, it also organize all your pictures, movies, video clips, text documents (PDF, Microsoft Office, etc.), archives (ZIP, RAR, etc.) and all files, music and media inside of archives. Find Duplicate Photos now is able to organize pictures by variety of their tags and properties. In addition to standard tags, such as image width and height, size and comments, Find Duplicate Photos now will also organize your pictures by all types of EXIF, IPTC, GPS, JFIF, GeoTIFF, XMP, FlashPix, AFCP, ICC Profile, Pictureshop IRB and variety of other image tags and properties. Find Duplicate Photos even use camera manufacturer-dependant tags. It can organize pictures using tags of Canon, HP, JVC, Victor, Casio, Leaf, FujiFilm, Nikon, Olympus, Epson, Pentax, Asahi, Ricoh, Sanyo, Sigma, Foveon, Konica, Sony and may other picture cameras. Find Duplicate Photos know about your pictures even more, that you know about them and use it's knowledge to organize your pictures and media in the perfect way, even better as you may imagine.
